

Lodi Green Building Workshop

Co-sponsored by California Sustainable Winegrowing Alliance and PG&E

Partnering organizations: Lodi Woodbridge Winegrape Commission, Wine Institute
and the California Association of Winegrape Growers

Wednesday, April 15, 2009

Lange Twins Winery & Vineyards

1525 East Jahant Road

Acampo, California 95220

8:30 a.m.- 12:00 p.m.*

Registration begins at 8:00 a.m.

(Continental breakfast will be served)

After the workshop, CSWA and Lange Twins will be hosting free a lunch

* There will be an optional green building winery tour after the CSWA and Lange Twins hosted lunch, which will include a sustainable winegrowing media event and PG&E check presentation to Lange Twins.

To register, please visit www.sustainablewinegrowing.org/workshopcalendar.php
to complete a registration form.

If you do not have access to the internet please call Lisa Francioni at 415-356-7545.

The workshop will cover:

- An overview of the green building movement in the U.S and new mandates in CA.
- How to make the business case for implementing green building practices.
- How LEED certification works and the benefits of using LEED.
- Alternatives for lighting, building envelop considerations, building material options, thermal mass, passive cooling and heating, and reducing refrigeration loads.
- Examples of various forms of construction and different forms of energy innovation.
- An overview of PG&E's incentive programs to optimize energy efficiency.
- An optional winery tour of the Lange Twins, featuring their green building and energy efficiency measures at the winery.

The energy workshops augment the self-assessment workshops and other targeted education workshops on topics such as integrated pest management, and air and water quality, hosted by CSWA as part of the California wine community's Sustainable Winegrowing Program.

Please visit www.sustainablewinegrowing.org for a workshop calendar.
