Team BTG Racing announces new sponsorship roster, lead by LangeTwins Family Winery and Vineyards, for 2012

LangeTwins Winery and Vineyards presented by Great Basin Imaging Cycling Team

LODI, CA (Wednesday, October 19, 2011) - Team BTG Racing is pleased to welcome LangeTwins Family Winery and Vineyards as their 2012 title sponsor. LangeTwins Family Winery and Vineyards will be joined by presenting sponsor Great Basin Imaging and a cast of supporting sponsors: Glacier Glove, Eclipse Pizza, Wild Island Family Adventure, Kinetic Cycles, Stevens Bikes, Voler Cycling Apparel, Synergy Sport's-Gray Wheels, O2 Fitness, Silver Sage Sports Performance and Full Fitness Services.

TEAM BTG RACING (LANGE TWINS WINERY AND VINEYARDS P/B GREAT BASIN IMAGING CYCLING TEAM) – A Lodi, CA based sports company dedicated to the advocacy of bicycling with a focus on Northern California – Nevada Cycling Association's (NCNCA) Masters Bicycle Racing.

LANGE TWINS FAMILY WINERY AND VINEYARDS – LangeTwins Family Winery and Vineyards was founded by identical twins Randall and Bradford Lange and is a fifth generation sustainable farming company. In 2006, the Lange family opened a winery to showcase their passion for winegrowing.

As a multi-generational family business, sustainable winegrowing is a way of life. The Lange's built their business based on respect for the land, responsible energy use and a desire to make the best and most environmentally-friendly wine possible.

Since opening in 2006, the Lange family has continued to expand their state-of-the-art winery to keep up with the demand for their LangeTwins wines as well as private labels and custom winemaking services. Their wines can be found at fine wine shops and restaurants in California as well as select markets across the country.

GREAT BASIN IMAGING – The professionals at Great Basin Imaging (GBI) take a more caring approach when providing state-of-the-art medical imaging. You'll realize it the moment you walk into our comfortable, contemporary offices. It's one of the primary reasons physicians in the Gardnerville, Minden, Carson City, Reno, Sparks and Lake Tahoe area so frequently refer us to their patients.

Great Basin Imaging is not a hospital. Rather, we specialize in select leading-edge diagnostic medical imaging technologies. By exclusively concentrating on these specific healthcare disciplines, GBI delivers the most advanced imaging equipment to include PET/CT, MRI both open and closed, X-ray, Ultrasound, DEXA, Mammography, Stereotactic and MRI breast biopsy and Nuclear Medicine services, often while saving you money.

GBI's scope of health care imaging services also includes The Women's Center and our outpatient Interventional Radiology Clinic. Comprising an entire wing of our facility, The Women's Center is dedicated solely to protecting a woman's health, while our Interventional Radiology practice proactively assesses your health and provides treatment options through minimally invasive image guided procedures.
